

Mini Crawlers

Used Mini Crawler Bakersfield - We have designed various Mobile Crane Operation programs at our Crane Training Schools. These programs are recommended for the experienced operator who requires re-certification or certification, and for inexperienced operator who is seeking a job in the business. Crane operator positions are high because of their high rates of pay. Crane operators are amongst the highest paid of any heavy equipment operator. Our Crane Training Schools include instruction and training for a wide variety of mobile cranes. Course subject comprises Crane Set-up, Wire Rope, Lift Planning, Load Dynamics, Rigging, Signaling and Load Charts. The Crane Training School program is best for operators, riggers and supervisors. Course materials comprise an informative and manual hand-outs. The illustrated safety manual consists of 100 to 250 pages, depending on the course, of helpful and essential material. Course materials consist of load charts and load chart exercises for the crane with which the trainee is working. Hands-On Safety Training will take up over half of the course curriculum. The practical training section is the most useful method to improving and developing personal skill levels. Just qualified journeyman crane instructors are selected to teach the courses. Our instructors have many years of practice in the business. Optional testing mechanisms are provided for all of our courses. Students will normally write tests both prior to and following training. A skills test is usually administered for programs which comprise H.O.S.T. Trainees will be tested and graded. We provide certified training programs for the following cranes: Fixed and Swing Cab Mobile Hydraulic Cranes; Lattice Boom/Crawler Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signalperson Certification and Training; Testing & Certification; and In-The-Seat Training. As the new business requirements emerge, the industry standards of practice also change. The business sees continual updates to regulations and legislation, in addition to technology and equipment enhancements. Industry data collection and analysis identify changing trends. Members maintain the privilege of managing their certifications and training programs. Mobile device alerts keep members abreast of personal and workplace safety news.
